ABOUT ME

I am currently pursuing a B.Tech in Computer Science Engineering at Uttaranchal University, Dehradun. I completed my 10th and 12th education in my hometown, Deoband, where I developed a strong academic foundation and a keen interest in technology. I am highly curious and always eager to learn new concepts, striving for continuous growth and improvement. With a disciplined background—my father being a veterinary doctor—I have been brought up to value knowledge, hard work, and dedication. My goal is to apply my learning effectively and contribute meaningfully in the field of computer science.

PROJECTS AND CERTIFICATES

Microsoft Power BI

Developed Power BI dashboards for an SAP company and a sales company. Visualized employee data including skills and contact details, and tracked chocolate sales by country and salesperson. These projects strengthened my skills in data visualization, Power BI, and handling real-world business data with a focus on clarity and usability.

Web Development

Created an Employee Management Portal for an SAP-based company to manage employee data. Developed a donation website for NGO Hands Not Chains to support child education and end child labour. Built mini projects like an Amazon clone, Rock-Paper-Scissors, Tic Tac Toe, and login pages, enhancing my web development skills and experience in building user-friendly, purpose-driven applications.

AI Agents

Built AI agents in n8n, including a RAG agent and an appointment approval agent with loop logic and email automation, enhancing my skills in workflow automation and AI integration.
